

# THE RAILROAD SOCK®

AN AMERICAN TRADITION SINCE 1901

## PRODUCT CATALOG

# SINCE 1901

One of  
America's  
oldest sock  
companies!

The Railroad Sock name first appeared in advertisements in 1901 – but the history goes back to 1896 when William G. Leininger partnered with his cousin George H. Leininger to start a hosiery mill in Mohnton, PA (near Reading — home of the Reading Railroad). After two years, they divided and each started their own knitting mills.

William founded and ran multiple mills from 1898 onward including **Railroad Sock**, which became popular due to the high-quality, durable work sock worn by the local rail workers. Leininger's family continued operation through three generations into the 1970's.

Railroad Sock has passed hands a couple times since then and even migrated over 1,000 miles southwest to Grain Valley, Missouri.

Now under the watchful helm of Amanda Kunkel-Beech, Railroad Sock continues to innovate, offering a comprehensive product line of over 100 styles and colors that cover work, sports, and leisure in cotton, wool, and poly blends – **which you'll see in the coming pages!**

Since the beginning of the 20th Century, our mission has always been to provide customers with quality, American-made products at a competitive price. It's a tradition we proudly continue today.
